

# PortaPump Junior

The PortaPump Junior is a commercial grade pump that will fit on to any brand of string trimmer or brushcutter. Made with a cast aluminum housing and impeller, the PortaPump Junior quickly transforms any string trimmer into a high speed water pump. The upper sleeve fits over the shaft of the trimmer and is screwed securely in place then all that is required for use is attaching a discharge hose.

- Up to 30 GPM depending on engine size
- Self-priming
- Weight = 4 lbs.
- Discharge Size = 1.25"

Optional Wire Mesh Screen
