

Air Force F-15 –2-Stroke Hover Mower

F-15

The NEW Air Force F-15 brings the 2-stroke engine back to hover mowers and with it, consistent performance for all angle mowing. The F-15 weighs 22 lbs. empty and less than 25 lbs. full of fuel and will run 45 minutes on a single tank. Height of cut ranges from ¾" to nearly 3". At 60cc (25:1 mix), this is the most powerful engine on any small hover mower for outstanding cutting power in a small package.

The F-15 is standard with the Stainless Steel swing blades kit. The QC blade and String blade system are optional.
