THE PROFESSIONAL'S CHOICE

F-15 Gen 3

Cutting Width	15"
Cutting Height	3/4" - 1 3/4" 2" - 3" with Hi-Lift Kit
Dry Weight	22lbs.
Engine	JN-60 2-stroke 60cc
Deck	Injection Molded ABS
Fuel Mix	25:1
Handle	Length = 50"

AIR FORCE 2-CYCLE ENGINE

Redesigned for increased performance and durability, the NEW JN-60 engine features a double tall air filter and vertical intake to have cleaner air flowing through the engine. A larger fuel tank and strengthened pull starter for greater longevity. This is the strongest yet lightest engine in its class and STILL the only true two stroke engine for all angle mowing.

Strengthened Shut Off Handle for Increased Longevity

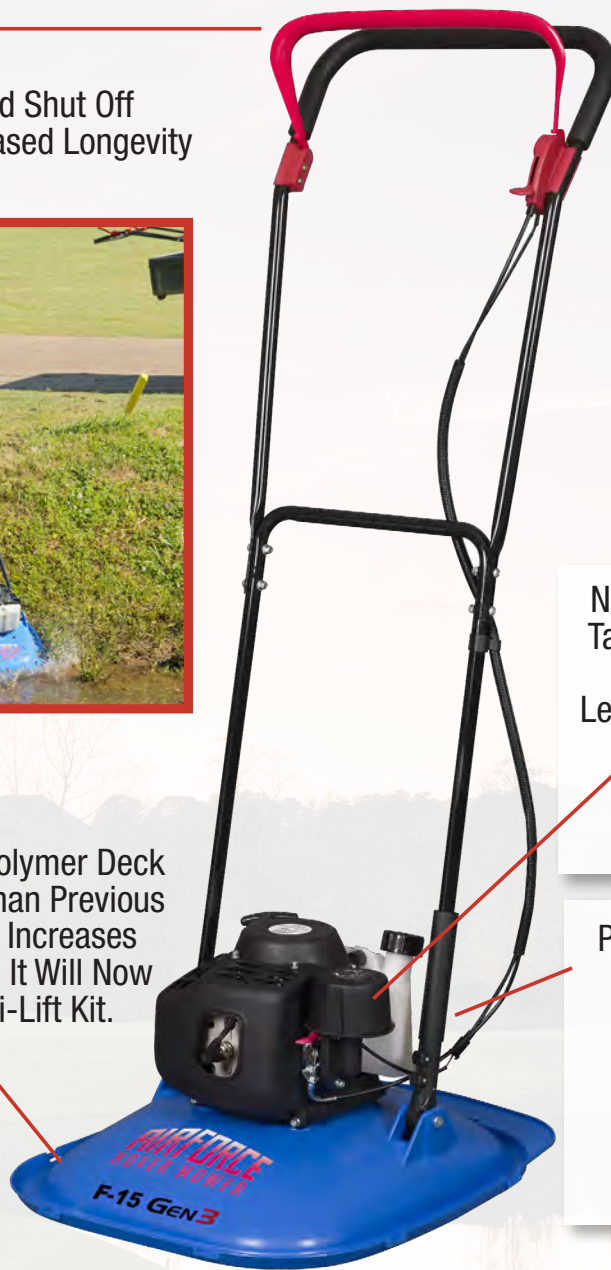

NEW Nylon Injected Polymer Deck Is Now 3X Stronger Than Previous Decks. NEW Design Increases Mowing Stability and It Will Now Accept Optional Hi-Lift Kit.

NEW Air Filter 2x Taller for Cleaner Air Flow and Less Maintenance

Padded Carrying Grip for Easy Transport

ACCESSORIES

HANDLE EXTENSION (AF1260 – FOR F-19 ONLY)

Add 14" to the mower reach with Handle Extension Kit.

HI-LIFT KIT (AF1250 OR AF1550)

Air Force offers an innovative solution to mowing higher with a hover mower. The Hi-Lift Kit features built in bracing and a clip style attachment system that is 100% tool free. Easy to attach, detach, and clean, this kit allows the F-19 and F-15 to cut higher.

///ATOM®

The Award Winning design of Atom Edgers are paired with the proven power of Honda engines for the fastest walk-behind edgers in the world.

	PRO MAX	Professional
Engine	50CC Honda 4-stroke full crank commercial engine	35CC Honda 4-stroke full crank commercial engine
Body	Reinforced polyamid casing. Fully enclosed solid steel transmission shaft.	
Blades	Exclusive patented 4-blade cutting system. Hardened spring steel blades for smoother operation, longer life and neater cutting.	
Features	Heavy duty automatic safety clutch. Easy Lift carrying handle. 6 position height adjustment. Strong steel handle bars. Trigger throttle with safety interlock.	

CART PATH EDGER (ATCPE4-MAX and ATCPE4)

The wheel barrow design and cross over blades keep this machine on line and moving fast all day long. Cover 300 feet per minute while getting a clean, sharp edge. A multi-purpose tool that can be used for cart paths, baseball fields, sidewalks, landscape beds or as an anti-encroachment tool on greens.

WIRE WHEEL BRUSH BLADE (AT49000)

This accessory blade is the best way to edge asphalt cart paths without damaging the path or tearing up blades. Braided stainless steel wire cleanly clips the grass while brushing along the top of the asphalt. Also dynamic as a crevice cleaner on concrete, brick, pavers and joints.

Great for anti-encroachment around greens.

ROTAROLA

PORTAPUMP (PPH-35)

Powerful, versatile and portable, the PortaPump is a one person pumping station. This self-priming pump is a go anywhere, pump anything machine. The PortaPump can pump 33 GPM through 100' of hose or over a 30' rise without losing pressure. The heavy duty trash pump head will clear water, chemicals or any material up to 1/8" with ease. The Honda engine is powerful, quiet and features a half-speed trigger lock. Ideal for getting water out of bunkers, cart paths, clogged drains, sports fields, flooded rooms, ponds, playgrounds or for help out when irrigation lines break.

Engine	Honda GX-35, 35CC 4-stroke
Output	33 GPM
Discharge Hose	1 1/4" (fittings available)
Features	Metal Impeller, Half Speed Trigger lock, Self-priming

Option Wire Mesh Sand Screen (PP-L80SS)

SEAGO ATTACHMENT GROUP

POWER ROTARY SCISSORS (PRS-9.5)

Counter rotating blades create a clean, sharp cut in any use. The Power Rotary Scissor head is easy to attach and easy to maintain – multiple shaft adaptors are included in the box with the fully assembled head. The 20:1 reduction ratio and automatic stopping blades means the Power Rotary Scissors are incredibly safe, fast and efficient.

Blades are easy to sharpen and replace as the gear unit can be completely disassembled for easy maintenance. The optional 11" diameter blades can be inserting quickly and easily.
